

SERVICE CASE STUDY

EXPERT DOOR SERVICES

OVERVIEW

Cairn Cross provides expert installation of rail depot doors, roller shutters, and doors across UK depots, ensuring safe, efficient, and fully compliant access solutions.

Cairn Cross specialises in the installation of rail depot doors and roller shutters, ensuring that depot access points are safe, secure, and fully operational.

Our installation services are designed to:

- ▶ Ensure precise fit and alignment for large depot doors
- ▶ Enable safe movement of rolling stock in and out of depots
- ▶ Integrate seamlessly with depot workflows and safety protocols
- ▶ Comply fully with UK rail safety and operational standards

KEY FEATURES & BENEFITS

- ▶ **Precision installation** – ensures doors operate smoothly and safely
- ▶ **Safe handling of large industrial doors** – reduces risk to staff and rolling stock
- ▶ **Custom integration** – tailored to depot layout and operational requirements
- ▶ **Durable, long-lasting solutions** – designed for heavy-duty rail environments
- ▶ **Compliance with UK rail safety standards** – for peace of mind and operational confidence
- ▶ **Reduced downtime** – efficient installation minimises disruption to depot operations

INSTALLATION SERVICES OFFERED

Cairn Cross provides end-to-end depot door installation, including:

- ▶ Roller shutter and roller door installation for maintenance depots
- ▶ Alignment, calibration, and adjustment for optimal operation
- ▶ Integration with automated or manual operating systems
- ▶ Installation within depot infrastructure – including walkways, jacking facilities, and inspection pits
- ▶ Testing and commissioning to ensure full compliance and operational readiness

APPLICATIONS ACROSS UK RAIL PROJECTS

Cairn Cross depot door installation services are applied to:

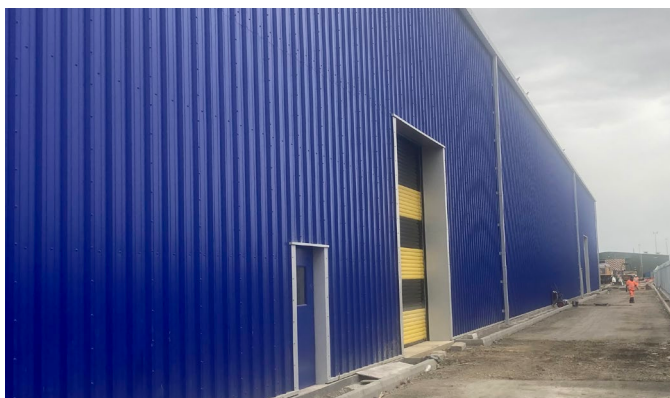

- ▶ Maintenance hubs and operational depots
- ▶ Storage facilities for rolling stock
- ▶ Fleet maintenance and refurbishment sites
- ▶ New build depot extensions or renovations
- ▶ High-throughput operational depots requiring reliable, safe access

STRUCTURED INSTALLATION PROCESS

Cairn Cross installs depot doors using a safe, efficient, and structured approach:

1. Depot site survey and assessment of door requirements
2. Preparation and alignment of door openings
3. Installation of roller shutters, roller doors, or custom depot doors
4. Integration with automated or manual operating systems
5. Testing, commissioning, and safety verification
6. Handover with operational guidance

This ensures every door operates safely, efficiently, and reliably from day one.

SUPPORTING SAFE & EFFICIENT RAIL OPERATIONS

Cairn Cross depot door installation ensures:

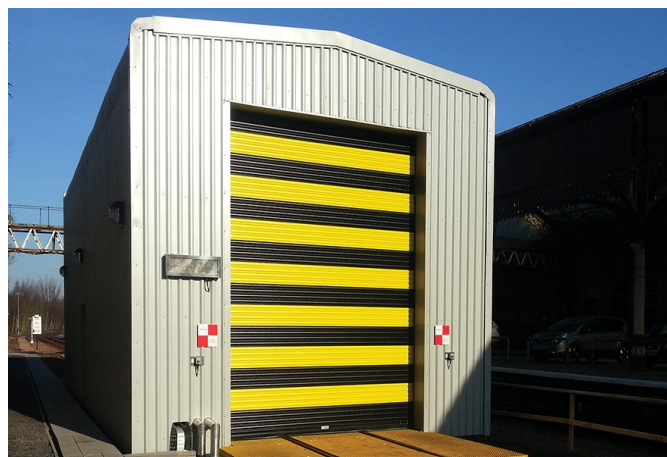

- ▶ Safe and secure access for rolling stock and staff
- ▶ Integration with depot workflows and maintenance operations
- ▶ Operational efficiency with minimal downtime
- ▶ Compliance with UK rail safety standards

WHY CHOOSE CAIRN CROSS FOR DEPOT DOOR INSTALLATION

Cairn Cross combines expertise in rail infrastructure, precision engineering, and depot integration to deliver bespoke installation of depot doors, roller shutters, and roller doors.

UK rail depots have trusted Cairn Cross for over 30 years for:

- ▶ Safe, efficient, and precise installation
- ▶ Integration with complex depot layouts
- ▶ Long-lasting, reliable access solutions
